1. Prologue

Prologue

Perseus Jackson was abandoned by everyone. No one would accept him even after he won the Gods two wars and jumped in Tartarus for the one he loves most. He was executed for being 'too powerful', and Annabeth was found making out with Leo... the seven had known this the whole time!

Chaos accepts him with open arms and makes him the King of the Galaxies and commander of his army. 4,567 years later, the now combined camps need King/Commander Percy's help to win a war against the Titans, making this the 3rd Titan war.

Will Percy help those who've hurt him most, or sit back and watch as they all get destroyed?

2. Chapter One

****Chapter One****

"All in favor for Perseus Jackson to be exiled!" Zeus thundered angrily.

Everyone except Aphrodite, Apollo, Artemis, Hades, and [surprisingly] Hera voted no. And, shocker here, Poseidon voted yes to the exile.

"Dad, you want me dead? So much for favorite son..." Percy muttered sadly.

"I'm sorry, but you're too powerful, son. You're a threat to the gods!" Poseidon whispered regretfully.

"Don't 'son, you're a threat' me. I've won two wars for you, and you say I'm a threat to you?" Percy bellowed out furiously.

The images of Leo and Annabeth's body entwined together popped through his head.

"It's the truth" Mr. D said scornfully.

Annabeth and Leo's voices muttering 'I love you' in each others ears.

"I'm sorry Perseus. I'm just afraid of you." Persephone trailed off shaking her head, which made her corn colored hair slightly bounce.

_Minutes later Jason came running in. 'Percy! Oh I'm sorry buddy it's just...'. _

'What's going on, did you know!?' Percy had said madly.

And then Piper came rushing in, tge words, 'Oh gods' spilled out.

Finally, Annabeth and Leo stopped their make out session and noticed Piper, Jason and Percy.

"Father! You're killing the only decent male left!" Artemis yelled, while Zeus ignored her.

'Percy! I-it's not what it looks like!' Annabeth had stuttered.

'You knew?' Percy reapedet softly to Piper and Jason.

'Well, yeah... We didn't know what to do!' Piper said scared out of her mind.

'HOW ABOUT YOU GUYS TELL ME NEXT TIME!' Percy screamed before he had lunged on Jason, all the while screaming Bloody Murder.

Percy pulled out Riptide and started hacking away at the already bloody boy. Piper was trying to pry Percy off and Jason crying out in pain and trying to get out; Leo and Annabeth were watching in horror, only just realizing what they done to the poor Sea Prince. But just as Hazel and Frank rushed in, Zeus zapped them to Olympus, claiming Percy was already turning on them.

"I just wanted Annabeth to truly love me. I just wanted people to be honest to me..." Percy said, dropping to his knees as Zeus flung the master bolt at him. All this happened so fast. The Seven, Nico, and the Hunters of Artemis watched horrified; Leo and Annabeth looking guilty every second of it.

Later that day, everyone at camp noticed the missing boyâ€” Percy Jackson. The only emotion running through their minds was confusion. The only ones who knew where the lost boy was either witnessed the execution, or they were listening to the story now, at the Cabin Council meeting.

"Why would you ruin Persues?" Chiron asked after had Frank told him what had happened.

"I don't know why I did it." Annabeth whispered. All of Percy's friends and admirers (everyone basically) watched angrily at Leo and Annabeth.

The Savior of Olympus was dead.

All hope was forever lost.

3. Acknowledges

Hey everyone, thanks for the support so far. I'm here to address a few notes, and I was reading the review that reminded me to do so.

****Matt-** Hey moron, get a brain. Leo has a crush on Calypso. So do something useful and mill yourself.******

First off, Annabeth in the books was into Percy and look here, she cheats on him... So obviously Leo could do the same.

But also, I'd like to address the fact that I wrote this story years ago. I wrote it before many of the finale Percy Jackson books were published.

My previous story was actually titled under, "King of the Galaxy's - Commander of Chaos", which I finished years ago. The only difference with it now is that I'm going through it and editing it...

So yes, there will be subtle changes between this and the original and obviously the books, so hang in there...

And of course, ****Cheese PuffXx****... amazing! Thanks, man.

This will use a male Chaos; gender never really came up though, so there is no major factor with that of course.

There is no main pairing for Percy, it kinda does happen suddenly at the end though. And when I say end, I mean the legit last paragraph. (I started a sequel to go over that, but I never finished that.)

He is slow on forgiving, cue why there isn't a main pairing. But there are other relationships though.

This will be updated often, as the chapters are already finished. Thanks for the reviews. And no, I won't kill myself, Matt.
